

Waybill Validation Training

Phase 1: Check if delivery note was created

1. Open job tracking application on cps

2. Navigate to Bundling data, then search either by BundleID or BinID

3. Here is an example of a bin with id BIN01DHL00094287

9782720797	Card Image for PP_SB SA_...	Card

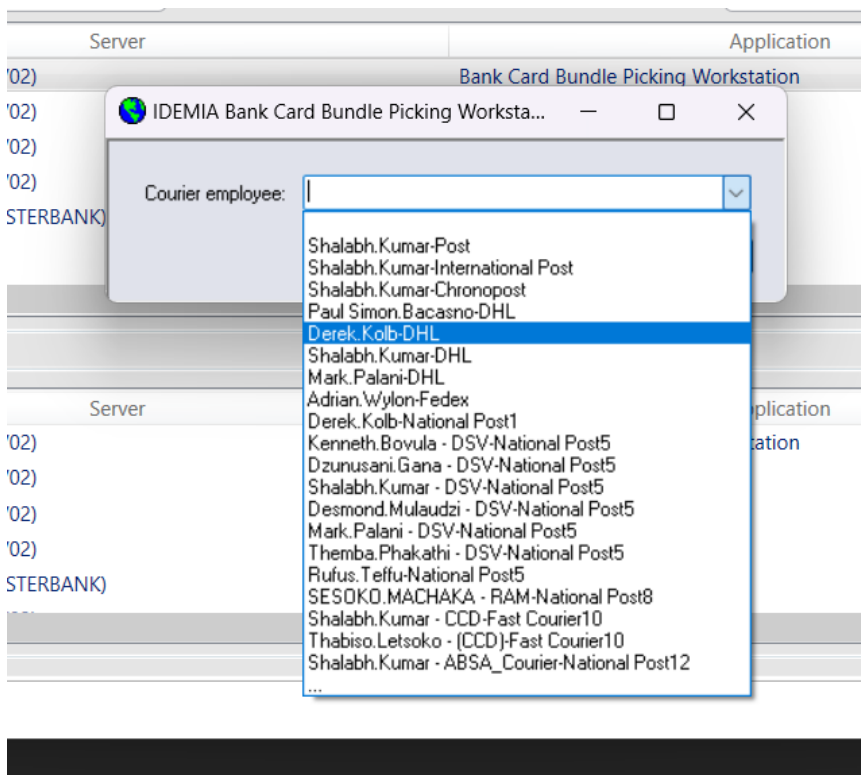

Delivery note does not exist; this confirms that the waybill was not validated and bins were not closed. From here we can proceed to the next phase

Phase 2: Validating and closing the bins

1. Open Card Bundle Picking Workstation

2. Select a person from DHL in the list

3. From here input all the bins, once done click validate dispatch

IDEMIA Bank Card Bundle Picking Workstation

Validate Dispatch Cancel Dispatch

About Close

In cases where validate dispatches require reasons for late dispatches provide reasons in the window that will appear

NB: You might need to do this for all the bins one by one
